

June 28, 2018 – Barry Ferguson, Strata President

Marina Pointe or (LMS2995) is one of the largest Strata corporations in the City of Vancouver. We often need a legal consultation on items like bylaws amendments, AirB/B challenges, etc. Amanda [Koralewicz] has become a valuable asset to the owners of our Strata, she is always available to give timely advice and recommendations to issues that require a legal action or opinion. Most significantly Amanda defended us in a four day trial in a water damage case, where an owner was suing the Strata Corporation for negligence. Being sued by an owner has to be taken seriously. The outcome of these cases can often set precedence in the future for all Strata's. Thanks to Amanda LMS2995 won the case.
